

KODAK

CFexpress Type B card CFE4 Silver 掠影 Specification

KODAK CFexpress Type B CFE4 Silver belongs to the high-performance Silver series, representing a significant leap into the next generation of speed and capability. Equipped with the latest PCIe Gen4 x2 interface, it delivers exceptional maximum read speeds of up to 3600MB/s and write speeds of up to 3000MB/s.

This outstanding performance not only meets the demands of professional high-speed continuous shooting but also effortlessly handles ultra-high-bitrate video recording, smoothly supporting 8K high-bitrate video and ultra-high-resolution RAW burst capture. Designed to stay ahead of the curve, the CFE4 Silver is built to accommodate professional equipment upgrades over the next 3–5 years and remains compatible with a wide range of flagship cameras from major brands.

Additionally, the CFE4 Silver is available in multiple capacity options, comprehensively meeting the diverse needs of all types of users.
